WHAT IS HOME UNLESS YOU OWN IT?

We are purchasing houses in all parts of the city for others, why not YOU?

You pay for the home you select in small monthly payments; NO INTEREST.

AMERICAN HOME BUYING COMPANY:

Gentlemen—You will remember that I wanted a good house and nice home, and took three contracts each of \$1,000. You notified me that my contracts were matured, before I was ready, so I made search for property to suit me, and No. 1348 East Tenth street proving satisfactory, you, on my application, promptly purchased it and on our agreement I took possession at once. Being a railroad man of experience I well know the value of time, and your promptness and care pleased me, and having quit spending money for rent, I shall feel it my duty to explain your liberal, conservative treatment, and your economical and safe ways of doing business.

Yours Truly,

A. L. DONELSON.

Indianapolis, Ind., May 10, 1904.

AMERICAN HOME BUYING COMPANY:

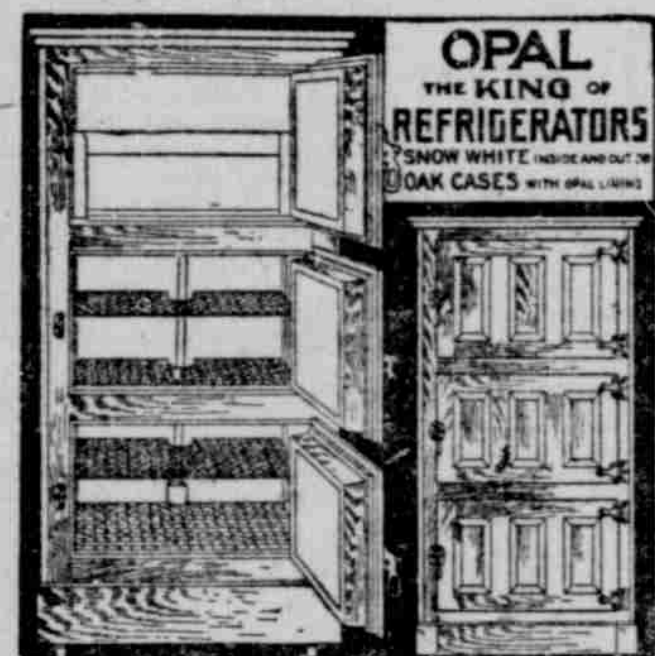

Gentlemen—Having selected a new property for my home, you very promptly and really to my surprise, at once placed me in possession of it, you only taking time to see that everything was safe, and though I had not paid as much as I should have expected, my experience and observation is quite extensive, and your plans are superior and more economical than any other, and I shall take pleasure in recommending you to all inquirers. Residence, No. 611 West Twenty-eighth street.

Respectfully, G. W. AUSTIN.

The "OPAL" REFRIGERATOR

Of special interest to those who have learned the wisdom of spending a dollar in order to make one. Here is a refrigerator the first cost of which is, perhaps, greater than that of any other on the market. Yet if you will stop to consider the saving of ice, the saving of food, the saving of time, the satisfaction of knowing that you have the best refrigerator made and one which is perfectly sanitary, then you will agree that the "Opal" is an investment worthy of your best thought. Snowwhite Opal is used inside and out, making it as easy to clean as a dish and as sanitary as the most exacting physician could demand. See them on display in our window or take the elevator to the second floor and there examine them at your leisure. We are the exclusive agents for this city.

In addition to the "Opal" we carry a full line of

Men who have realized a measure of success as salesmen, writers, in a business or professional life, but feel equal greater things, dissatisfied because of the limitations placed upon them by conditions beyond their control, ambitious to DO things, that have that larger confidence in themselves and the courage to undertake, will find in the life insurance work the OPPORTUNITIES, and, in a DIRECT connection with a company and home office officials, an inspiration. Where the study of individual tendencies and the training of men for the work is made a specialty, it is quite impossible to anticipate the outcome from the exercise of the individual resources.
